ZEBRA MOBILE PRINTING AND
TICKETING SOLUTIONS

SOLUTIONS FOR MOBILE PRINTING AND TICKETING

Electronic citation solutions from Zebra provide law enforcement, parking and code enforcement personnel a solid and measureable financial payback with the ability to print parking tickets, traffic violations, and other citations. With on-the-spot electronic citations, there's no writing by hand, which can mean a large reduction in data entry, postage, and processing costs. Plus, printed citations are durable and legible without handwritten errors that can create an unenforceable ticket. Fines are more likely to hold up in court, more likely to be paid, and are faster and easier for officers to issue.

Printed citations—produced by a rugged Zebra® mobile printer, Zebra's high-quality receipt paper, and a handheld terminal as a complete system electively replace handwritten tickets. Printed citations eliminate the cost, delay and errors associated with manual data entry. Citations are clearly printed and contain important information such as the reason for the citation, remittance information, and other crucial data.

E-Citation Solutions from Zebra are Ideal for:

- Parking violations
- Moving violations
- Violations of local ordinances
- Parking passes
- Receipts for parking fees

Faster to Issue

Printed citations drastically reduce the amount of time it takes to issue a citation. This increases the number of citations that can be issued during a shift and makes it faster to issue multiple citations to a single defendant.

Citations More Likely to be Paid

Printed citations are more legible and accurate than handwritten citations and are more likely to hold up in court. Plus, citations can be pre-printed with remittance instructions, courthouse locations, and other information that makes paying the citation easier for the defendant.

Lower Processing Costs

Since the citations are created electronically, administrative processes are streamlined. This means the data entry costs related to handwritten citations are eliminated.

Increase Officer Safety

Electronic citations decrease the amount of time the officer is out of the patrol car, which reduces the chance of being struck by a moving vehicle. Zebra's e-citation solutions are easy to use and allow officers to focus more attention on the offender rather than the ticket pad.

RELIABILITY ON DEMAND

Zebra's rugged printers provide the foundation for an easy-to-use, mobile e-citation system. Wireless connectivity, such as Bluetooth® or 802.11x, allow for protected transfer of information between the Zebra® printer and the handheld terminal.

Durable and long-lasting

Rugged and durable printer designed to withstand dust, moisture, and even drops to the ground.

High performance battery technology optimizes power usage providing a long lasting charge.

Zebra ZQ500™ Series

Designed to be road warriors, Zebra's ZQ500 series mobile printers offer incredible durability and ease of use. These versatile printers allow for quick and efficient printing of tickets and fines while withstanding harsh weather or even multiple falls from as high as 6 feet. Available in 3"/72 mm and 4"/104 mm print widths, and 203-dpi print resolution.

Zebra iMZ™ Printer

The iMZ printer is a smart assistant for any public safety professional requiring quick, simple citations on demand. These unobtrusive printers can be worn comfortably for a full shift providing simple to operate, reliable citations up to 2.9" wide.

Accessories to Fit Every Need

Zebra's mobile printers are designed to move with you. Whether worn with a strap or mounted in a vehicle, Zebra printing solutions won't slow you down.

In-Vehicle Options

Vehicle cradles and mounts allow for docking, charging, and convenient storage of the printer while on the move.

Batteries

Zebra backup and replacement batteries ensure your Zebra mobile printer always has the power it needs. Zebra batteries offer high power-to-volume and power-to-weight features.

Battery Eliminator

If you leave and use your printer in the—fixed-mounted and powered by your vehicle's power source—Zebra's Battery Eliminator reduces the cost of owning the printer both initially and over the course of its life.

MOBILE COMPUTING DEVICES

Mobile Computers eCitation

Redefine mobility with improved response times, enhanced situational awareness and increased efficiency. Electronically issue parking tickets in a fraction of the time required for a handwritten ticket and capture a geostamped photo of the vehicle license plate or the entire vehicle for indisputable proof of time and place. Zebra offers a variety of mobile computers to improved productivity, ticket accuracy, revenue and collections.

Workabout Pro 4 Mobile Computer

Features a modular design enabling you to select the features needed today and upgrade key features tomorrow with simple modules changes. Add a new scan engine; a camera, RFID, Wi-Fi, cellular and GPS, plus a wide variety of additional options.

MC67 Mobile Computer

With the ability to connect to virtually any carrier, the MC67 rugged mobile computer can better serve government and public safety operations. Featuring a choice of operating systems (WEHH or Android™), 4G HSPA+ or software configurable dual wireless WAN, robust scanning options, camera and GPS technologies, data capture and information access is easier than ever.

TC75 Touch Computer

Enterprise class all-touch Android™ KitKat device built, tested and proven to operate reliably (IP67 rating) ensuring performance in any weather conditions or rugged environments. Valuable features to government and public safety professionals include alternative to two-way radio communications, data collection, records query, ID validation/ticketing, location services, resource deployment and video/photo scene documentation.

HIGH QUALITY. PRE-TESTED. RELIABLE. GENUINE ZEBRA SUPPLIES

Purchasing genuine Zebra supplies means you have access to a large selection of quality, pre-tested, supplies manufactured by a thermal industry expert. You can rest assured that genuine Zebra supplies will not only work in the printer, but in the application as well.

Quality

We never substitute materials, ensuring consistent print quality and eliminating the need to adjust printer settings from order-to-order.

Zebra is ISO 9001:2008 certified. We have standard consistent processes in place that we follow to ensure the creation of finished products that deliver high customer satisfaction

Computerized vision inspection system ensures proper registration of pre-printed text, logos and color.

Color Matching Software and Equipment ensures precision-matched PMS colors and consistency from run-to-run.

Pre-Tested

Zebra extensively tests all materials we offer in Zebra printers

There are thousands of types of thermal media, so Zebra has a supplies R & D lab, where our experienced technicians conduct tests to determine which ones deliver the best print quality and the most durable images.

Reliable

We are experts in manufacturing supplies for thermal printers.

Zebra is one of the largest thermal label converters in North America.

We use inks, varnishes, tooling, equipment and inspection techniques specifically suited for the special requirements of thermal materials so they won't harm thermal coatings and build-up on printheads, insuring excellent print quality and minimal printhead wear and tear.

Selecting the best thermal receipt paper for your citations is essential. While they look similar, the chemical make-up of each receipt material affects its resistance to moisture, heat, and other external factors. The thickness of the paper and the lifespan of images printed on it also vary. All of these attributes are very important to consider to ensure documents remain intact and readable during their useful life. Citations can be pre-printed on both sides with a police department logo, court appearance instructions, fine remittance information, and other useful information to help assure payment—and cut costs.

Z-Perform™ 1000D Receipt

This bright-white, smooth paper facestock provides the optimal balance between performance and price. Z-Perform 1000D is direct thermal, uncoated receipt paper that provides an ideal solution for direct thermal paper applications requiring limited durability.

Z-Select™ 4000D Receipt/Z-Select 4000T Receipt

This premium, bright white, ultra-smooth paper facestock is specially coated to provide optimal image quality. Available as either thermal transfer or direct thermal, Z-Select 4000D and 4000T are coated receipt papers that are ideal for high-speed printing applications where print quality is important.

8000D High-Temp Receipt

For parking applications in high temperatures or where sun exposure can be an issue, Zebra's 8000D High-Temp Receipt paper offers a great alternative to standard receipt papers. This white, coated receipt paper provides temperature resistance to 194° F/90° C.

PolyPro™ 4000D Receipt

Zebra's white, matte polypropylene receipt provides excellent print quality and good scratch and smear resistance. This synthetic, direct thermal receipt is recommended for outdoor applications. It stands up to rain, is tear resistant, and is UV-coated to maximize its weather resistance.
